## ARGAN signed a new lease for 7,000 sq.m as part of its AUTONOM® in Serris (77)

ARGAN announced that its AUTONOM® logistics site in Serris (77), in the immediate suburbs surrounding Paris in the Eastern part of the Île-de-France region, is re-rented to ZyCOM, a new client specializing in the distribution of networks and telecom material.

This logistics site is ideally located on the A4 French highway. This state of the art logistics platform will welcome this July a new operator on a warehousing surface of around 7,000 sq.m, completed by 400 sq.m of offices. This new location will be used as a national logistics hub for the different entities of the ZyCOM group, which has set the target to optimize its distribution operations over the whole national territory.

### The very first AUTONOM®

Delivered in 2022, this building was the first AUTONOM® developed by ARGAN. Gas is thus banned and replaced by electric heat pumps, the building generates and uses its own green energy thanks to a photovoltaic power station combined with batteries for energy storage. Additionally, a building Management System helps the operator manage and monitor energy consumption. All this equipment led to a BREEAM Very Good certification of our Serris AUTONOM®.

Since 2022, AUTONOM® projects have been deployed all over the French territory with now 15 buildings under this label.

### **ARGAN has a portfolio representing close to 4 million sq.m rented at 100%**

Ronan Le Lan, Chairman of ARGAN's Executive Board: "The signing of this new lease means our portfolio of 100 warehouses representing 3.7 sq.m is maintaining an occupancy of 100%. This performance testifies to ARGAN's teams expertise in terms of rental management. Additionally, the Serris (77) site holds a particular place in our history. It was indeed the first prototype of the AUTONOM® standard and its fast re-renting confirmed the relevance of this virtuous logistics real estate piece, which is environmentally friendly".

Christophe Valentin, Senior Project Manager of ZyCOM: "The technical and environmental qualities of this AUTONOM®-labelled site meet our high environmental ambitions. We are pleased to integrate this new workspace, which will support our continued growth."

This operation was concluded with the help of CBRE teams, which advised both parties in this transaction.
